EC FERTILISER

Boron ethanolamine

Water soluble boron (B) 10,9% (150 g/L)

Solution (specific weight: 1,375 kg/L at 20°C)

12 x 1 L (12x1,375 kg) - 10 L (13,75 kg)

Crops	Rates		Application time & mode
	L/ha	L/100 L	
Sugar beet	2 - 4	0,8 - 1	At 8 and 16 leaf stage
Oilseed rape	2 - 4	0,8 - 1	1 application at leaf development and at stem elongation
Sunflower	2 - 4	0,8 - 1	1-2 application at 4-8 leaf stage
Legume grain crops	1	0,3 - 0,4	With plants 10-15 cm high and before flowering
Lucerne and Legume forage crops	1 - 3	0,5 - 0,8	After each cutting
Horticultural crops	1	0,3 - 0,4	After 4-6 leaves
Grapevines	1 - 3	0,2 - 0,3	Application at sprouting, visible bunch, fruit setting, berry development
Fruit trees	1 - 2	0,1 - 0,15	At fruit setting and post-harvest
Apple and Olive trees	2 - 3	0,1 - 0,2	Before flowering (2 applications) and at fruit settings
Flowers and ornamental plants	10 mL/100 m ²		Early growth
Fertigation	3 - 6		

Caution

In greenhouse do not apply concentrations above 100 mL/100 L. In case of mixture with other products try the compatibility beforehand on small surfaces.

Do not treat during flowering. PVA dispersible bags must be fully dissolved before adding FOLIAREL® Flüssig. Carefully rinse the sprayer after use.

FOLIAREL® FLUSSIG is a liquid fertiliser for foliar and fertigation applications, specific to prevent and cure boron deficiency.

Boron is a micronutrient essential for plant nutrition, being indispensable for carbohydrate synthesis and translocation, for flower fertility, for cell divisions, cell wall formation, protein and lipid synthesis. Boron deficiencies, are common in sandy or clay soils, with soil pH below 5.5 and up to 7.5, in soils with low organic matter content and in droughty conditions or in washed out soils.

FOLIAREL® FLUSSIG can be applied in small water volume on: Tree crops, Herbaceous crops, Horticultural crops, Flower and ornamental crops. The more responsive crops are: Sugar beet, Oilseed rape, Cotton, Sunflower, Olive, Celery, Soybean, Horticultural Solanaceae, Grapevine, etc.

Thanks to its Sodium free formulation, FOLIAREL® FLUSSIG has a safe fertilising action even on sensitive crops.
