FOLIFLO® Mn-Zn is a fluid Manganese and Zinc based fertiliser, easy to use. Thanks to its high concentration in nutrients and safe formulation it is particularly suited to correct and to prevent Manganese and Zinc deficiencies.

Caution

In greenhouse do not apply concentrations above 100mL/100L. In case of mixing with several products, make a preventive "jar test" on a small area. Avoid spraying under hot, sunny daylight and during crop blooming. Presence of Copper on plant canopy can reduce product absorption.
